

REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

NGUYT03/03RI

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,269,950, granted 08/07/2001 and for which a reissue patent is sought on the invention entitled Tab-Free Thermoelastic T-Shirt Bag System.

the specification of which

is attached hereto.

was filed on _____ as reissue application number _____

and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/2B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

I believe the original patent to be partly inoperative or invalid because of error without any deceptive intent on the part of the applicant, by reason that I claimed less than I had a right to claim, because independent Claim 1 in my original patent:

- 1) includes the language "generally horizontally situated" when referring to the support cut in paragraph 1, which language I believe unduly narrows said claim;
- 2) includes the language "said first and second linear cut sections penetrating said handles", which I believe unduly narrows said claim by limiting the first and second punch stamps forming said first and second linear cut sections to the handles of the bag.
